Message from the Director of Studies

Students often ask me about the benefits of doing an MBA. While there are many reasons, and these do vary according to your background and goals, I always highlight the following.

The first is money. There is enough evidence that confirms that education pays, and that having an MBA can improve your salary over time. Secondly, having an MBA improves your career opportunities. It raises your profile with existing and potential employers.

An MBA provides you with new skills and knowledge. The Concordia MBA is designed to improve your technical and analytical skills, providing a holistic perspective of the business world. It equips you with the analytical frameworks to address real-world business problems and improves your business communication skills, which are a pre-requisite for virtually any management position.

Just ask yourself this simple question – Will having an MBS be an advantage to where I want to be in five years? The resounding answer is yes!

The FPS is applicable to all students regardless of nationality and the type of passes held by the students, i.e. dependent's pass, student's pass, work permit etc.
